Announcement on the closure of Call 1 under Track A (funding from the JU budget)

The Jagiellonian University hereby announces **the closure of the application round under Track A** (for researchers) in Call 1 for funding pre-implementation works. The application round is being closed because the total amount of funding requested in Applications submitted to date under this round has reached the level triggering the condition of **150% of the funds** allocated for this round. Accordingly, Call 1 under Track A is deemed closed as of **31 July 2026**.

Applications submitted up to the time of closure will be assessed in accordance with the rules set out in the call documentation. In the case of Applications receiving a positive assessment that cannot be funded due to the exhaustion of the allocation available under Call 1, the call organizers propose that they be further processed under Call 2, without the need to resubmit the full documentation, subject to compliance with the conditions specified by the organizers and the applicant's consent. Applicants affected by this situation will be notified in separate correspondence.

At the same time, we would like to inform you that:

- **it remains possible to apply under Track A of Call 1 for funds from the InnoCel sp. z o.o. budget (intended for persons interested in establishing a company);**
- **the application round under Track A of Call 2 runs until 31 October 2026, or until the funds available under the call are exhausted;**
- **the document "DETAILED RULES FOR THE SUBMISSION AND SELECTION, AS WELL AS IMPLEMENTATION AND SETTLEMENT OF PRE-IMPLEMENTATION ACTIVITIES AT THE JAGIELLONIAN UNIVERSITY UNDER THE 'DEVELOPMENT INCUBATOR' TASK OF THE 'SCIENCE4BUSINESS – SCIENCE FOR BUSINESS' PROJECT (FENG)" is being updated (the changes concern only paragraph 4.2).**
